

BRICKLAND
WEAVE

**HDB'S SALES LAUNCH
FEBRUARY 2023**

BTOgether

BRICKLAND WEAVE

Located in the Brickland District of Tengah town, Brickland Weave is bounded by Brickland Road and Tengah Boulevard. This project comprises 12 residential blocks, ranging from 11 to 17 storeys in height. You can choose a home from 1,641 units of 2-room Flexi, 3-, 4-, and 5-room flats.

Within Brickland Weave, various facilities are nestled amid pockets of green spaces for both the young and old. Here, adults and the elderly can work out at the fitness stations, while children enjoy the playgrounds. The landscaped roof gardens above the Multi-Storey Car Parks cater to those who prefer quieter spaces. More recreational facilities can be found at the adjacent common green where one can jog, play, or unwind amid greenery.

Daily conveniences are also within easy reach, as Brickland Weave will come with shops, eating houses, and a minimart. A residents' network centre and a 3-storey childcare centre will be located within the project as well. In addition, residents will be served by the planned amenities in Tengah town such as a Neighbourhood Centre, Jurong Region Line MRT stations and a bus interchange. They will be served by bus services leading to the city centre and nearby towns. With an extensive network of walking and cycling paths, residents will also be able to walk and cycle everywhere in Tengah.

Please refer to the site plan located for the facilities provided in Brickland Weave. Facilities in this project will be accessible by the public.

ABOUT TENGAH TOWN

Homes in Tengah town will be surrounded by lush greenery and nature. HDB has applied its Biophilic Town Framework to guide the enhancement of existing natural assets and the design and development of neighbourhood landscapes in Tengah. Residents can look forward to nature-centric neighbourhoods that offer a greater sense of place, better well-being, and an enhanced quality of life. A variety of outdoor spaces and landscape features will be introduced to draw people closer to nature. A town-wide Active, Beautiful, and Clean Waters design strategy will also be introduced to slow down and treat stormwater runoff, while enhancing the biodiversity. Find out more details on Tengah town at <https://www.hdb.gov.sg/cs/infoweb/about-us/history/hdb-towns-your-home/tengah>.

Tengah will be the first town to integrate housing projects with the area's surrounding greenery and biodiversity. One major attraction will be the approximately 100-metre wide and 5km long Forest Corridor, which will form part of the larger network of greenery that connects the Western Water Catchment Area and the Central Catchment Nature Reserve. In collaboration with the National Parks Boards, various tree species will be planted in the Forest Corridor to transform it into a rich forest habitat.

Complementing the Forest Corridor is the Forest Fringe, a 15- to 20-metre wide linear greenscape that will provide a tranquil and rustic environment for residents to enjoy flora and fauna. In addition, extensive park spaces, such as the Central Park and Community Farmways, will string key amenities and facilities together, providing a safe environment for residents to access their daily amenities.

Tengah will be the first HDB town to have a car-free town centre nestled next to a lush green park. To encourage green commuting, there will be dedicated walking and cycling paths along all roads to create seamless connections within the town. The upcoming Jurong Region Line and bus services will serve the public transport needs of residents.

Tengah is also the first HDB town to be planned with town-wide smart technologies from the outset. Guided by HDB's Smart Town Framework, the various districts will integrate smart technology in its design, so that residents can enjoy a quality living environment. Autonomous vehicles will be piloted in Tengah town to provide convenient first-mile-last-mile connection to key transport nodes and amenities.

Vibrant commercial facilities are planned for the town centre and in the districts, complementing other shopping and dining options in the nearby Bukit Batok town. Check out the heartland shops on Where2Shop@HDB at <https://www.hdb.gov.sg/cs/infoweb/residential/where2shop/explore/bukit-batok>.

ABOUT BRICKLAND DISTRICT

The architecture of the buildings in Brickland District is inspired by Tengah's industrial past where brickwork factories were located. The district is close to the Forest Corridor, which forms part of the larger network of greenery between the Western and Central Catchment Area.

Brickland Weave takes its name from the heritage of this area, reinforced by the weaving pattern on its façade.

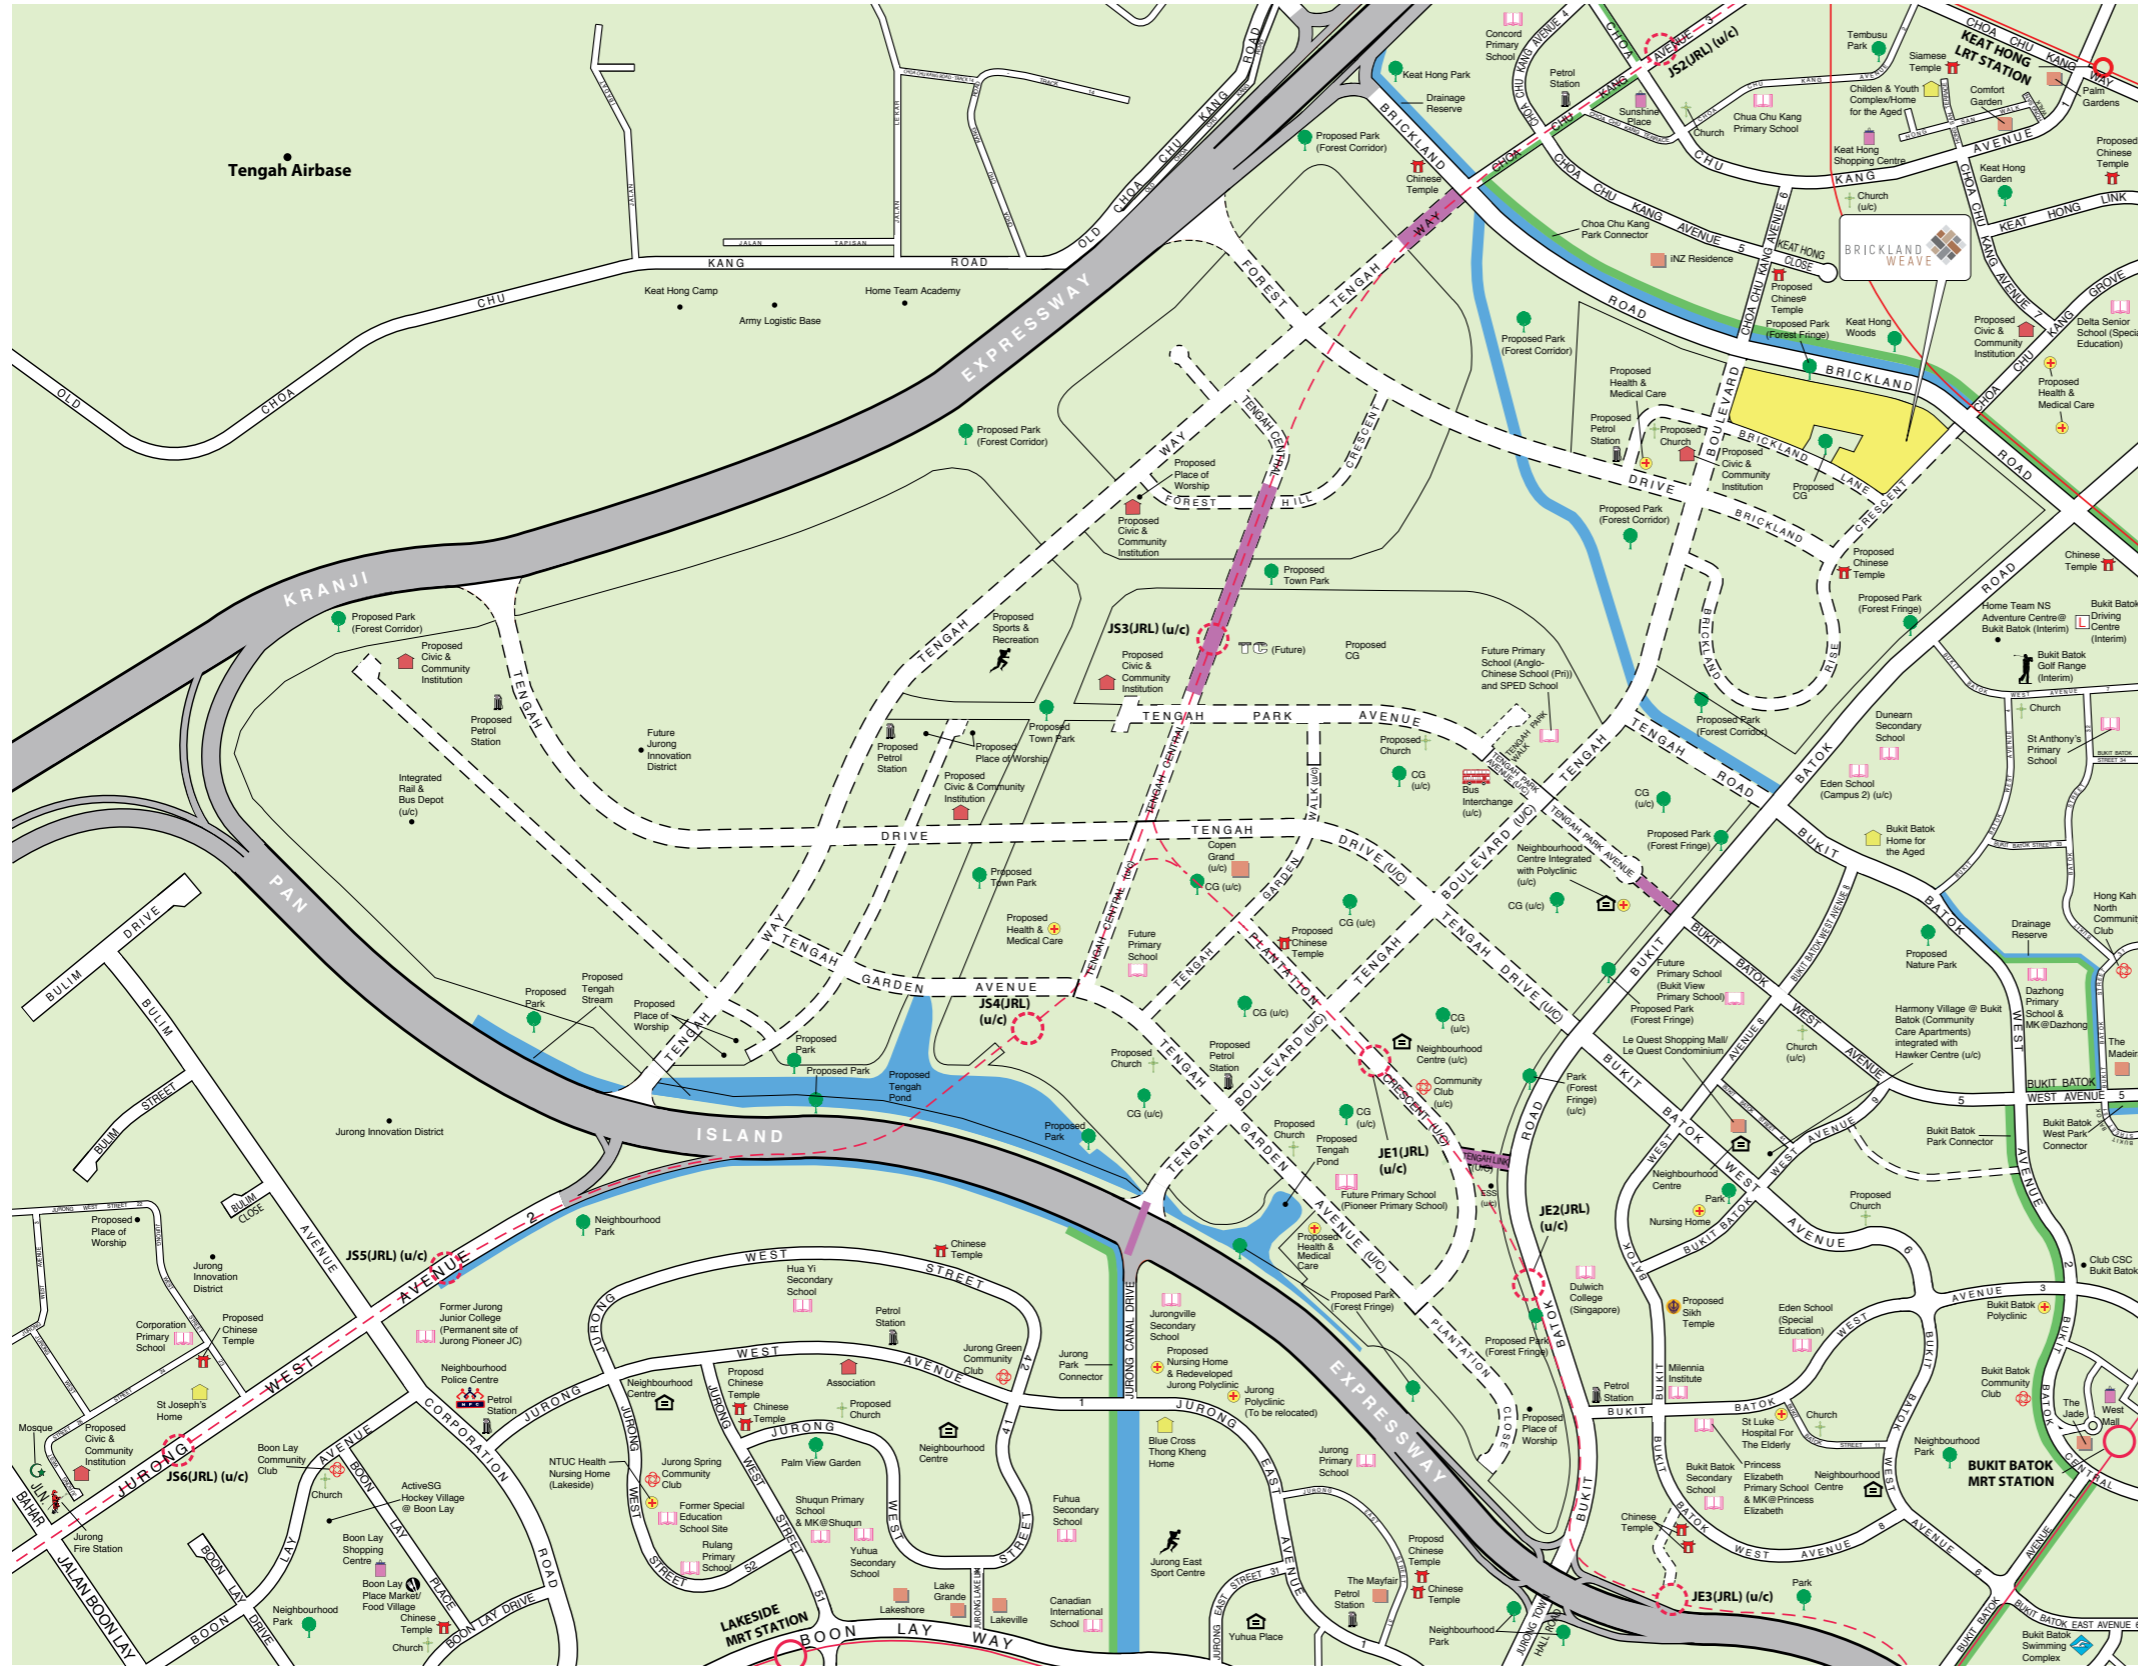

IMPORTANT NOTES

HDB precincts are planned to serve the evolving needs of the community. There are spaces catered for future inclusion of amenities/ facilities (such as childcare centres, eldercare facilities, education centres, residents' network centres, day activity centres, etc), commercial facilities (such as shops and eating houses), mechanical and electrical rooms, and such other facilities depending on the prevailing needs. These spaces could be in the void decks, common property, car parks, or stand-alone community buildings.

In addition, housing projects may be located near roads, railways, airbases, and land used for non-residential purposes. Hence, residents may experience higher noise levels. We have provided information on the surrounding land use, proposed facilities and their locations in the maps and plans of individual projects, where feasible. The information provided is indicatively based on the current planning intent of the relevant authorities and is subject to change from time to time.

ECO-FRIENDLY FEATURES

To encourage green and sustainable living, Brickland Weave will have several eco-friendly features such as:

- Separate chutes for recyclable waste
- Regenerative lifts to reduce energy consumption
- Bicycle stands to encourage cycling as an environmentally-friendly form of transport
- Parking spaces to facilitate future provision of electric vehicle charging stations
- Use of sustainable products in the project
- Active, Beautiful, Clean Waters design features to clean rainwater and beautify the landscapes

SEPARATE CHUTES FOR RECYCLABLE WASTE

BICYCLE STANDS

ABC WATERS DESIGN FEATURES

SMART SOLUTIONS

Brickland Weave will come with the following smart solutions to reduce energy usage, and contribute to a safer and more sustainable living environment:

- Smart-Enabled Homes with provisions to facilitate adoption of smart home solutions
- Smart Lighting in common areas to reduce energy usage
- Smart Pneumatic Waste Conveyance System to optimise the deployment of resources for cleaner and fuss-free waste disposal

CENTRALISED COOLING SYSTEM

Residents can choose to subscribe to have air conditioning provided from a centralised cooling system. This system for public housing is the first of its kind in Singapore.

Cooling to each household unit will come from highly energy efficient chillers, and residents need not install nor maintain outdoor condensing units on their air-conditioner ledge. They will get to enjoy cost savings while contributing to a sustainable lifestyle in this eco-friendly district. Residents may decide to subscribe to the centralised cooling system after signing the Agreement for Lease. .

OPTIONAL COMPONENT SCHEME (2-ROOM FLEXI FLATS)

FOR SHORT-LEASE 2-ROOM FLEXI FLATS ONLY

PACKAGE 3 offers elderly buyers the convenience of having a flat in move-in condition. It comprises:

ELDERLY-FRIENDLY FITTINGS

- Built-in kitchen cabinets with induction hob and cooker hood, kitchen sink, tap and dish drying rack.

Here are some features of an induction hob:

- It does not produce an open flame
- Its cooking zone cools down faster
- It is easier to clean than a gas hob
- As it has a flat surface, pots placed on an induction hob are less likely to topple over.

- Kitchen cabinets come with mobile cabinets to provide knee space (especially for wheelchair users)
- Built-in bedroom wardrobe with a lower clothes hanging rod for easy reach

- An option to have a lower counter top height

- Folding door at the flexible space in the 2-room Flexi (Type 2) flats

OTHER FITTINGS

- Window grilles for safety and security

- Mirror

- Toilet roll holder

- Lighting

- Water heater

Buyers who opt for Package 3 must select Package 1.
